

Q&A

Question from the Official Media broadcast:

Is it possible to provide competitors with equipment with a microphone and a recorder during the races?

French Version

Est-il possible de fournir à des compétiteurs un équipement avec un micro et un enregistreur pendant les courses ?

Answer

No.

Having a microphone and a recorder on board while racing would be a breach of the class rules in all the classes involved in this event, unless the Notice of Race or the Sailing Instructions would permit it.

Asking individual competitors to carry and use extra equipment while racing could be considered a disadvantage to their performance.
